

**Subject: Recommendation for Aryaman Patel**

To Whom It May Concern:

I hope this letter finds you well. It is our pleasure to give Aryaman our enthusiastic recommendation, who has worked as an intern on my development team at the start-up company Bandhealth, previously known as Selfihealth, throughout his final year at Rutgers University.

Aryaman has demonstrated an aptitude for software development, particularly in the frontend. He was able to complete delegated tasks quickly and effectively with guidance appropriate for any junior developer getting onboard a new project. His design skills are top notch. With very little direction Aryaman redesigned our app's home screen to bring the look and feel into alignment with a change in brand identity.

Aryaman has also consistently demonstrated exceptional skills, dedication, and a strong work ethic throughout his internship. He is extremely punctual, reliable, and proactive in his role.

Throughout his internship, Aryaman consistently displayed an aptness for critical and creative thinking, strong communication, teamwork, leadership, professionalism, and enthusiasm. He actively sought out self-development opportunities from our in-house development team, going above and beyond the scope of his role and quickly becoming an integral member of our team.

It was a pleasure to work with Aryaman during his internship. Along with his technical skills, Aryaman has displayed keen communication skills while working in a fully distributed team. He demonstrated an ability to understand when an obstacle required assistance from another member of the team and didn't hesitate to reach out for the help needed.

In summary, Aryaman Patel has been a standout intern, and I wholeheartedly recommend him for any future professional opportunities. If you have any further questions or require additional information, please feel free to reach out.

Best regards,

Zach Gotlib
